

User Booklet- Caregivers

Registration

You have to register when you use the app first time.

To register as a user

- Open the Saksham app by clicking on it
- A screen opens that asks you to enter caregivers ID, Patients ID and password.
- Enter your valid email address and patients' email address in the columns for ID. If you don't have an email id, you have to create one
- Enter (new) password
- Click on Register

After you have registered, the app asks you for permissions to record the information and to take the images. You have the option to Click 'Allow' if you wish to proceed.

You have to register only once. The app asks you to enter the username and password only the first time you use the app or if you logout.

If you have logged out and you want to login again

- Enter caregiver ID (your email) patient's ID (patient's email) and password.
- Click on Submit

After you register, you have to indicate your consent to participate in the study.

Participant Information sheet will give you information about the Saksham App and your participation in this study

Participant informed consent form is for taking your consent

Please read the **Participant Information sheet and Participant informed consent form** carefully. Talk to others about the study if you wish.

Please ask us if there is anything that is not clear or if you would like more information. Take time to decide whether or not you wish to take part.

Click on 'I agree' if you are satisfied and agree to participate in the study.
